

The Anchorage Birding Trail is a virtual guide to 35 birding sites throughout the Anchorage Bowl—a region that boasts more than 160 regularly occurring bird species. These sites range from classic birding hotspots like Westchester Lagoon and Potter Marsh to day-trip-worthy opportunities in Eagle River, Girdwood, and Whittier.

For more information, check out our Birding Trails homepage at: <https://www.audubon.org/alaska/projects/alaska-birding-trails>
