

Translated Captions

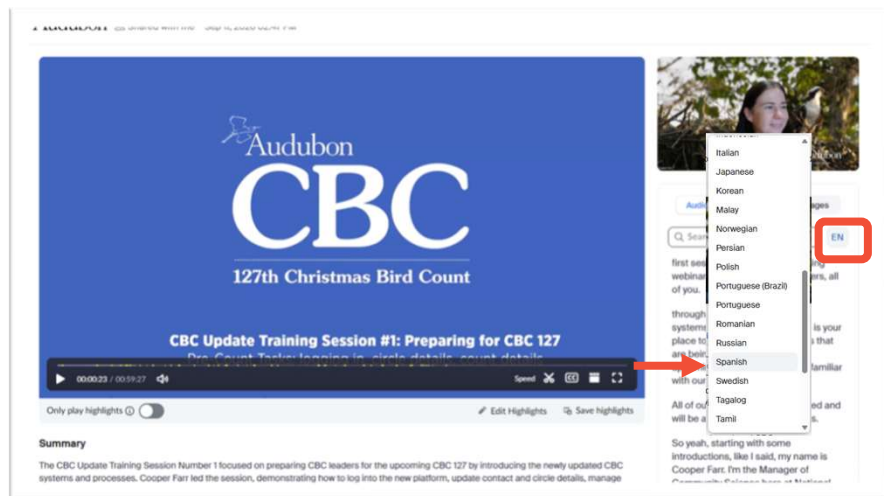

Translated captions are available for all CBC127 Training Sessions. Follow these instructions to enable translated captions for the recorded presentation:

1. Open the shared Zoom cloud recording link in your web browser.

2. Locate the Audio Transcript section to the right of the video playback screen. This includes a side panel displaying the full transcript alongside the video timeline.

3. To translate, click the Language Box in the transcript panel (to the right of the search bar) and select your preferred language.

4. Click on the CC (Closed Captions) button on the video to view the translated captions as the presentation progresses.
